LaSalle- Peru

What I Learned at The ACC

I learned basic childhood development and teaching strategies that I used throughout the rest of my college schooling and career. I also gained skills that I used later in life when I was blessed enough to have children. I learned and realized my love and passion for art and realized I could make a career out of teaching and art by pursuing the career of Art Education. Mrs. Rutkowski was a very inspirational and influential part of my career making decisions she reassured me that this was an area that I excelled in and should pursue. I was also lucky enough to have the opportunity to paint all of the murals in the Early Childhood room and center. All in all it was an amazing experience and hands down the most valuable class I ever took during my high school experience. I cannot say enough for the program and the skills I learned during my time in the ACC. It is a fantastic program.

My Advice to The ACC

The power of a smile and a positive attitude can change someone's world.
