

LPACC Hall of Success

Payton Rietgraf

Class of: 2017

ACC Program:
Welding

Occupation

Union Pipefitter

Local 597

Home School

LaSalle – Peru

What I Learned at The ACC

While in ACC Welding I learned the basics; which are plate welding, pipe welding, as well as stick and mig welding. While in the ACC I also ran the plasma table which helped me further my career for the fact that it helped me understand how layouts work.

My Advice to The ACC

It is a big world outside of the doors of the ACC, but if you listen to your teachers. And use the information you gain it will help. One of the things we learn to live by not only in the ACC, but also out in the field is to
