What I Learned at The ACC

The most important thing I learned was that I for sure wanted to go to school for Culinary Arts, to further my knowledge of the Culinary World

My Advice to The ACC

My advice would be to always take things seriously when it comes to doing things that are going to affect your future. Also to always be willing to learn new things and always give the most effort that you can. Being dedicated in your work and having a positive attitude can get you so far. They say “if you choose a job you love, you will never have to work a day in your life” so find something you are incredibly passionate about and stick with it.
