

# LPACC Hall of Success

## Tyler Lucas

### Class of: 2021

### ACC Program:

Computer Repair & Maintenance, Intro to Programming, Computer APP Programming, Culinary Arts

Occupation

Repair Technician

Home School

LaSalle  
Peru

### What I Learned at The ACC

The most important things I have learned from the class are hardware and software repairs of computers and some other devices. I have also learned C# to program using Console, Xamarin and Unity. I have also learned many safety guidelines for the kitchen, and follow a recipe correctly.

### My Advice to The ACC

Always put in more effort than you think you need to put, this will always look good no matter the situation because it means that you are willing to do more than necessary to make sure things work correctly.
